The amendment received 10 November 2004 has been made of record. Claims 5-19 are pending.

Claims 5-14, 16 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kawabuchi et al in view of Richter et al and Satoh.

This rejection is maintained for reasons of record. Applicant's arguments in traverse focus on the teaching by Richter et al of the use of specific tin catalysts. While this reference teaches specific tin catalysts designed to overcome the shortcomings of prior art tin catalysts, it remains a fair teaching (column 1, lines 15-58) that tertiary amine catalysts also lack these shortcomings.

Claims 15, 17 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kawabuchi et al in view of Richter et al, Ohashi et al and Satoh.

Kawabashi et al, Richter et al and Satoh have been discussed previously. None of these references disclose the use of zinc compounds as catalyst. The reference to Ohashi et al teaches the suitability of zinc octylate as a catalyst in similar urethane based adhesives. Given the teaching of Richter et al of the disadvantages of tin based catalysts, it would have been obvious to one of ordinary skill in the art to select suitable catalysts other than tin compounds such as the zinc octylate taught by Ohashi et al.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
